MINISTER SEWAL

Maine Man Appointed for Hawaii.

Favors Annexation and His Appointment May Indicate President's Policy.

WATHINGTON, April 22. - Presi dent McKinley today sent to the Senate the name of Harold M. Sewall as Minister to Hawaii. The Senate, in executive session, confirmed the nomination.

The appointment of Harold M. Sewall of Maine at Minister to Hawaii has bolstered up the hopes of the annexationists and those who favor a continuance of the reciprocity treaty with the Island Republic. Mr. Sewall has been all along an advocate of the annexation of the Islands, and his choice for the post of Minister is believed by those who favor that settlement of the question to be an indication of the policy of the Administration.

It is argued that had it been the wish to simply recognize Mr. Sewall for his work during the campaign this could have been done in other ways than by sending him to this post, where his pronounced views must lend color to the belief that the Administration has given him preferment by reason of his opinions and indorses them.

Mr. Sewall is eminently fitted to represent this country in the Pacific, as his long experience at Samoa made him familiar with the trade conditions of the Western Coast, and gave him an insight into the advantages to this country of traffic with the various isl-Mr. Sewall has an intimate knowledge of the feelings of Germany and England in regard to Pacific affairs, as he was at Berlin during the negotiation of the compact under which Samoa is now governed. He will be a valuable man for San Franeisco by reason of his connection with

the ocean carrying trade.

The sentiment in favor of a continuance of the Hawaiian reciprocity treaty, while it may not be growing, is showing more and more in the deliberations of the Finance Committee. which is now considering the tariff bill. Senator Kyle of South Dakota was heard by the committee today in an argument on the wool and hide subjects. Incidentally the Senator, who is counted upon to aid the Republicans in the passage of the bill, took occasion to tell the Republicans of the subcommittee that he believed it to be for the best interests of the West that the trenty be continued in force. He made an argument in favor of the treaty It is understood now that Senator Al drich is the only member of the subcommittee who is opposed to the continuance of the treaty.

Senator Platt of Connecticut said today that he thought the treaty a wise commercial convention, and Senator Ailison of Iown is believed to be opposed to any action at this time looking toward the breaking of the present relations. It is not thought that Aldrich can dominate the committee when the bill comes to be considered as a whole, and should Senator White finally decide to support the treaty, there seems little doubt that the tariff bill of the Senate will contain the provisions of the Dingley bill continuing it in force.

DEMANDSFOR RECIPROCITY. Telegrams Sent to Senator Perkins

by the Chamber of Commerce, The following telegram was sent to Senator Perkins yesterday by the Chamber of Commerce:

"The Chamber of Commerce reasserts its position in favor of retaining the reciprocity section with Hawali in the tariff act, which has proved so profitable to the State and this city benefiting all its various industries and productions and building up and preserving to the American flag the only section of our foreign commerce controlled by the Union, has given our citizens an opportunity to prove their zeal and ability as colonizers and has given to the American people the control of the North Pacific and its islands' commerce, and we, who have honored you to represent us as United States Senator, now demand that our wishes, representing the entire business community of the State, shall have your first and best support.

"Recent returns from California beet sugar refinerles show under the present Wilson tariff dividends of 40 per cent per annum and upward, exclusive of bounty. Such returns, without further increase, now afford ample protection to the preservation of the beet sugar industry. From this end it appears to us that the opposition to the present reciprocity with Hawaii emanates from the sugar trust, which is now interested in the principal factories in this State, and with the abrogation or modification of the treaty will be able to crush out the smaller factories to the detriment of the farmers and consumers. This is a national question, and every Senator must know what a source of danger Bermuda proved during the years 1861-65 to the Union. Hawaii, vastly more important in area and wealth, in other hands than American, would destroy our control of the Pacific Ocean. William H. Seward, when he secured Alaska, never contemplated surrendering Hawaii to the foreigner. "THE CHAMBER OF COMMERCE OF
